Innovative App Management for Online Data Exchange
between Hose Crimper and Central Administration

With the Crimp Manager App by UNIFLEX, you always have the necessary crimping table up to date and complete on your smartphone or tablet – both online and offline. Thanks to modern, innovative software, crimping processes can be saved as favorites and sent directly to the hose press via Bluetooth.
After the crimping process, all relevant data is automatically recorded and transmitted to your server via the internet, ensuring efficient and seamless documentation.

CRIMP MANAGER

Keep full control over your production data

The Crimp Manager by UNIFLEX enables the recording and analysis of all crimping processes.
Detailed evaluations and customized reports by region, customer, or product can be easily generated
on your computer using the data collected through the app.
This allows for precise order forecasts, demand analyses, and consumption data, optimizing your processes efficiently.
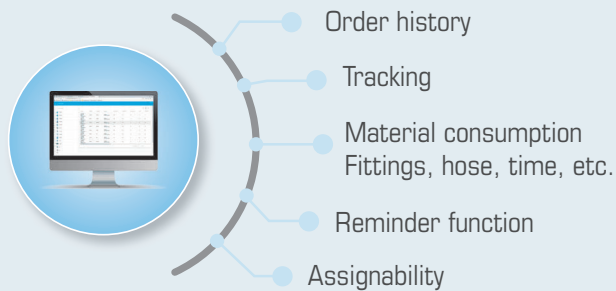

Security
- Consistent quality
- Always the right crimping dimension
- Press jaws specification
- Always up to date
- Worldwide update in one centralized process

Efficiency
- Complete crimping tables
- Individual part combinations are suggested directly
- Filter function
- Create favorites
- First-class ease of use
- No time wasted searching for data
- Paperless

Logging
- Order history
- Tracking
- Material consumption Fittings, hose, time, etc.
- Reminder function
- Assignability

Analysis
- Central evaluation
- Use of resources
- Support for purchasing
- Organizational management
- Locations, customers
- Quick information on consumption
- Warehouse management
